

**YES YES YES**

**The Westside Farmers Market will open on June 9.**

NYS is encouraging farmers markets because we are essential, and shopping at open markets is easier and safer than shopping in stores.

The market will open with restrictions due to COVID 19 guidelines. Many of the things we love about the market – music, crafts, yoga, etc will not take place until restrictions ease.

At least for the beginning of the season the market will not be so much a community gathering place, or an event, as it will be a place to buy food.

Watch the market Facebook page and our website [www.westsidemarketrochester.com](http://www.westsidemarketrochester.com) for details as the date gets closer. Send an email to [westsidemarketrochester@gmail.com](mailto:westsidemarketrochester@gmail.com) if you want to receive our newsletter.

Thanks and we hope to see you on June 9!!!!
